

Smile Club Intellectual Education

子どもの脳は、生まれた瞬間から成長が始まります。特に0～6歳ごろの乳幼児期は、一生の中でも脳が大きく成長して柔軟性も高い時です。

モバイルに頼らず、保育と教育を融合させ考察力や判断力、行動力、想像力などといった能力を養い、脳や頭の成長期に適切な知育を行うことで、より効果的な能力アップを望みます。

プログラム内容（参考例）子どもの興味・関心・好奇心に応じた様々なアプローチ方法
語りかけ・絵本の読み聞かせ・童謡・色合いのはっきりしたおもちゃで遊ぶ、指先を動かす活動、脳をたくさん刺激するシール遊び・ビーズ遊び・積み木・パズル・お箸の持ち方など
言葉や文字、数字を取り入れ、自分で考える遊びや簡単なルールのある遊びを取り入れる

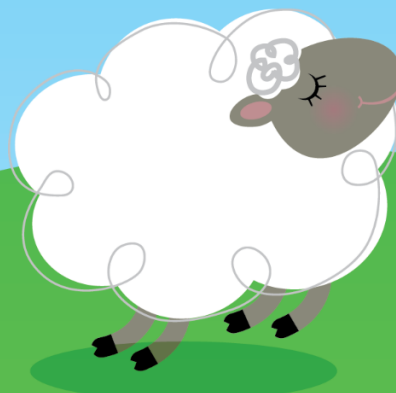

月曜～金曜 2時～5時30分（お昼寝・おやつあり）
週1回10,000円、週2回17,600円、週3回25,200円、週4回32,000円、週5回38,000円
スポット1日利用4,200円

Smile Club Intellectual Education

A child's brain starts growing as soon as they are born. Specially during early childhood from 0 to 6 years of age, the brain is highly flexible and grows at a very rapid pace. Instead of relying on mobile, we hope to improve the child's abilities more effectively by fostering abilities such as thinking, judgment, action, and imagination by fusing childcare and education together, and by conducting appropriate intellectual education during the growth period of the brain and intellect.

Program content: For instance- Methods that speaks to a child's interest and curiosity such as story telling, reading picture books, fables, playing with vivid colored toys, activities using fine motor skills, mentally stimulating sticker play, playing with beads, wooden blocks, puzzles and holding chopsticks etc., It includes play that uses letters, words, numbers with simple easy to understand rules yet requires some problem solving skills.

Mondays ~ Fridays 2:00 p.m.~ 5:30 p.m. (Includes nap and snack time)
